The Learning Objectives describe the main outcomes for the class.

HRCI holds educators to a very high standard, so you can be assured of a valuable educational experience. Courses that qualify will be clearly marked with this prestigious logo.

The use of this seal is not an endorsement by the HR Certification Institute of the quality of the program. It means that this program has met the HR Certification Institute’s criteria to be pre-approved for recertification credit.
Our Cancellation Policy

We offer one of the most liberal cancellation policies around. We commit to instructors and other registered participants based on the number of individuals registered for a program. As a result, “no-shows” or cancellations within two full business days of a program will be charged. Cancellations must be made in writing. This policy is firmly enforced for all members and non-members.

Please note that substitutions of participants may be made at any time for any of the one day or shorter programs. Multi-session programs are not transferrable for the purpose of substitution once the program has started.

Inclement Weather Policy

Please be advised that ERA makes weather related training program cancellations for Level 3 snow emergencies only. During any other inclement weather, we will hold our training programs and our normal cancellation policy will apply. Please check weather several days in advance and plan accordingly.

Discounting Policy

Program discounts are available to members only. In addition to membership discounts, a 5% earlybird discount is available and is applied when full payment for a program is received in our business office fourteen (14) calendar days prior to the start date of the program.

A 5% group discount is applied when registering three or more paying member participants for the same program fourteen (14) calendar days prior to the start of the program.

Refunds and Credits

In the event that a timely written cancellation is made, you may choose to receive a refund for any pre-payment or, to simplify your paperwork, we can apply a training credit. A training credit can be used toward any of your company’s registrations for any future training service within six months of your written cancellation.

Core Training Areas

Employers Resource Association is well known for the quality of its core training areas. If you are searching for the right combination of programs, we recommend creating a strong foundation with the following core courses. Then build on that foundation with other individually selected offerings to enhance specific skills.

Photos and Videos

From time to time ERA may take live action shots and/or video during training for use on our website, social media and print materials. When we do, we may ask for written permission from your employee to use their likeness. If you have any questions, please contact us for further details.

There is no other program that offers as much comprehensive information about the OSHA standards. Participants will learn how to take the OSHA standards and apply them immediately to their workplace. This program has been used by thousands of safety professionals over the years to guide the development of effective safety programs for their organizations.

Participants should bring their up-to-date OSHA CFR 1910 Handbook, if possible. Go to: www.osha.gov/publications/OSHA2254.pdf to download your free, up-to-date copy. All successful participants will receive a course completion card from OSHA after completing this course.

FMLA Essentials
This program is designed to provide a working knowledge of the FMLA requirements and is ideally suited for growing organizations at or near the 50-employee threshold of the regulation, or any manager new to the FMLA.

Learning Objectives:
- Effectively determine the key qualifiers that must occur before an employer is expected to grant job-protected family and medical leave to its employees
- Identify an employer’s essential obligations in handling and resolving requests from employees for job-protected leave under FMLA

- Effectively deal with those situations in which you must comply with FMLA, state workers’ compensation laws and ADAAA

Discipline and Discharge for Managers and Supervisors
Ending the employment relationship is not easy for most managers. Discharge is a huge area for employment litigation, with more and more regulations eroding the concept of “employment at-will”. Managers will learn certain precautions they can take to make sure they discharge legally and ethically. Also discussed will be the need for coaching standard performance, behavior and rules violations as a tool to help the employee succeed.

Learning Objectives:
- Recognize the purpose behind progressive discipline
- Recognize, reinforce and maintain performance improvements
- Avoid the seven “deadly sins” of reprimanding
- Develop a step-by-step process of preparing for and conducting the disciplinary meeting
- Review and discuss the most often violated laws surrounding termination that may prompt charges against the organization
- Develop a step-by-step process of preparing for and conducting the termination meeting that is both legal and ethical
The Importance of Workplace Harassment Prevention Training

Recent court cases have made it very clear: The quality and duration of workplace harassment prevention training is critical in providing an affirmative defense against claims of workplace harassment. Workplace harassment prevention training is under attack like never before. Thus, as training programs have become increasingly important, the quality of these programs has developed into the newest battlefield in the employment litigation wars.

As reported in the National Law Journal, in harassment lawsuits: “Plaintiff’s attorneys and the EEOC have begun to question employers aggressively as to how much money they spend on training, the expertise of the trainers, the curriculum and employee response to the training.”

What should be covered? According to an article recently written in the Legal Report, published by the Society for Human Resource Management (SHRM), your training should meet each of the following requirements:

- Be at least two hours in length for employees and three hours for supervisors.
- Be effective and interactive.
- Provide information and practical guidance to learners.
- Cover relevant federal and state law.
- Cover other forms of unlawful harassment/discrimination.
- Explain prohibitions against and the prevention and correction of sexual harassment.
- Include practical examples to instruct learners (employees and supervisors) in the prevention of harassment, discrimination and retaliation.
- Describe remedies available to targets of workplace harassment.

Furthermore, the expertise of the trainer is coming into question. In Cadena v. Pacesetter Corp. the jury awarded $300,000 in punitive damages to the plaintiff and was upheld under appeal because the employer could not show that the trainer was qualified to provide the training. When questioned during her deposition, the trainer incorrectly answered questions about what types of conduct could be considered sexual harassment. The court ruled that given the “trainer’s ignorance about sexual harassment, a jury could reasonably infer that Pacesetter failed to make good faith efforts to adequately educate employees about its non-discrimination policy and Title VII.”

Employers who fail to provide quality workplace harassment prevention training to all employees may be unable to establish an affirmative defense in response to a harassment lawsuit.
Employment Law Update and Review

This valuable day with the legal experts provides tremendous insight into the latest laws, rulings and practical interpretations to allow the executive or HR professional to perform a difficult job confidently, avoid expensive litigation and keep personal knowledge up-to-date.

**Learning Objectives:**
- Legally stay within the requirements of federal and state laws and regulations
- Identify and implement changes in policy and procedure made necessary by new legal requirements and changes in existing requirements
- Avoid making risky and costly mistakes due to lack of awareness of recent court decisions that change the way employment issues must be handled
- Explore creative alternatives in dealing with problems you are facing by discovering what your peers are doing on such issues

## How to Champion Change

This program is designed to help management and HR to not just manage change, but to “champion” change. ### Learning Objectives:
- Identify the triggers for change
- Discover the natural lifecycle of an organization and the essential role change plays in it
- Assess the organization’s readiness for change and your own personal readiness for change
- Utilize the “change/resistance” model to determine leadership strategy during change
- Design a communication and implementation strategy to get the team committed to change
- Prepare for employee reactions to change
- Implement the “6 Key Action Steps” for announcing change to improve buy-in and support

FMLA, FLSA for Managers and Supervisors

Assuming your organization has a professional HR presence, supervisors and managers need not be exposed to all the intricacies of these extremely complex laws. What is critical is for supervisors and managers to understand how these laws impact what they can and can’t say, and can and can’t do in carrying out their responsibilities. Failing to train leaders in these matters has been found by the courts to be paramount to “failing to make a good-faith effort” to prevent violations. To protect the organization, themselves, and employees’ rights, your management team must have a clear understanding of what behaviors are appropriate and necessary, as well as how to recognize subtle issues that might trigger a visit to the HR Department.

Learning Objectives:
- Eliminate common misunderstandings about these laws
- Recognize how HR policies guide organizational behavior under these laws
- Discover how FMLA may turn into an ADA concern
- Gain awareness in spotting “issues” that may trigger certain actions on management’s part
- Explore how to avoid retaliation and interference claims
- Recognize the manager’s responsibilities in appropriate handling of overtime pay
Avoiding Liability Landmines: Employment Landmines for Managers and Supervisors

This program is designed to help managers and supervisors to understand why they can no longer simply rely on “good judgment” in dealing with employees. Interacting the most with employees, these participants are also the most likely to violate employee rights protected by law. This eye-opening program will expose participants to the myriad of laws impacting their management activities and will examine the most common mistakes they make that lead them and the company into legal trouble.

Learning Objectives:
- Identify management activities impacted by laws
- Identify common legal errors supervisors make with Title VII, ADAAA, ADEA, FLSA, OSHA, FMLA and other laws
- Explain employment-at-will and ways managers unintentionally create implied employment contracts
- Understand the concepts of wrongful and constructive discharge
- Introduce the following nine legal landmines utilizing video enactments, team exercises, and class discussion: failure to document, failure to train, failure to keep evidence, grade inflation on performance evaluations, failure to consult HR, inappropriate electronic messages, inconsistent treatment, inappropriate talk about ex-employees and uncontrolled references

The Art of Negotiation: Strategies for Success

Any interaction with another individual is a negotiation. The ability to negotiate successful win-win outcomes is a critical business skill. Strategies will be shared to help them build a sustained Trust, Engagement, Accountability and Mission focus.

Business Writing in the Digital Age
In today’s fast-paced work world, business communication is most often conducted electronically. Unfortunately, often absent is the ability to communicate in a business-like fashion using this medium. Email etiquette will be reviewed as well. Both the experienced business writer who would benefit from an update, and the novice writer who needs a solid introduction to this skill, will find value in the program. Participants will practice writing and editing for well-organized, action-oriented communications that are logical, clear and credible.

Learning Objectives:
- Replace casual electronic writing habits with clearer, more professional business writing
- Eliminate common image busting grammar and punctuation errors
- Gain a competitive advantage through adherence to email etiquette
- Compose sentences that are positive and action-oriented to accomplish your goal more quickly
- Gain confidence with tools to help you correct your own work

**DiSC® Dimensions of Behavior**
